PRODUCT USE POLICY

It is the policy of Philip Morris Companies Inc. to use as many of its own products at company-sponsored events as is practical, and to showcase our brands to their best advantage.

This is a confidential document not to be distributed outside the company except to those under contract to the company with a confidentiality commitment.

2042020849

Product Use Policy

INTRODUCTION

As the world's largest consumer packaged goods company, Philip Morris Companies Inc. produces many of the world's most famous brands of foods, beverages and cigarettes. These are the products that make this company profitable, pay our salaries and provide opportunities for growth. It is to our individual and collective advantage to promote these products on every appropriate occasion.

In 1991, Philip Morris and its operating companies sponsored approximately 875 events at which food was served. That translates into 875 opportunities to showcase our products to the widest variety of markets, from the smallest **Kool-Aid** drink mix consumer to the largest institutional user of **Jell-O** gelatin in foodservice applications.

Section One of the Guide is designed to help event planners—and those to whom they report—to make the most of such opportunities in 1992 and the years to come. It sets forth the policy governing the use of our products—and those of our competitors—identifies competitive brands to be avoided, lists sources for our brands, provides billing instructions and outlines approved practices for identifying our brands in printed menus and table displays.

Subsequent sections will cover suggested breakfast and lunch menus and recipes and an extensive dinner menu and recipe guide prepared by the Culinary Institute of America.

PRODUCT USE POLICY

This policy applies to all internal foodservice suppliers, to all who plan events including outside consultants, and to all company related events—from staff meetings and training retreats to brand promotion sporting events and PM-sponsored banquets and receptions at non-profit meetings and conferences.

In applying this policy, planners are expected to use discretion in requiring the use of our products, whether foodservice or retail, by restaurants, hotels and caterers, especially with those vendors who normally use only fresh, unprocessed ingredients. Planners should work with the executive chef handling the event, making sure that the vendor is not asked to do more than he is capable of doing. The use of our products must *enhance* the image of our brands, not detract from it.

Event menus should be based on General Foods, Kraft and Oscar Mayer Foodservice products, which are packaged for large quantities and may be specially formulated for foodservice preparation.

When it is necessary to include KGF consumer products in the menu, they should be ordered directly from their KGF production unit, to insure delivery to the vendor or the nearest Kraft Foodservice distributor, in optimum condition. (Planners will have to exercise their own judgment in determining the most efficient delivery point.)

Consumer products not in national distribution should be used only at events taking place in markets where the product can be purchased at retail.

¹To this end, the greatest caution must be employed in ordering retail products for large scale events. Because they are not designed for large-quantity preparation, many retail products do not stand up under institutional conditions. Be guided by the vendor's resources—and advice—in selecting menus requiring retail products that must be processed—whipped, melted, cooked, kept hot, etc.—before they can be served.

Do not use competitive brands unless absolutely necessary —if, for an outside event, the KGF brand is unobtainable, it is best to drop that item from the menu. If that is not possible, the product should be served in such a way that the brand cannot be identified.

Competitors' brands of products we do not make —snacks, tuna fish, peanut butter —should be used only when no comparable product is available. (Kraft Foodservice branded items are the preferred alternatives. Contact local Kraft Foodservice distribution centers to review the available brands and products.)

When single service items, i.e., individual salt and peppers, sugars, packaged jellies, condiments, etc., are required, use Kraft-branded items, available through Kraft Foodservice Distribution Centers, or the hotel's own brand.

General Foods coffees —and Maxwell House teas —should be served at every meal, including cocktail receptions, where they are usually offered with Kraft cheese, fruit and/or dessert selections.

All available brands of Miller beer should be offered at any event where it is legal and appropriate to serve alcoholic beverages. If beer is to be available on draft, make sure that Miller taps are on the pumps.

There are no restrictions on wine or spirit brand choices, or on soft drinks and mixers at such events.

Sample cigarettes, ashtrays and matches should be available to smokers at least twenty-one years of age at every event, unless prohibited by law.

Planners are advised to have an assortment of Philip Morris' major brands on hand to give to smokers of competitor brands to encourage them to sample Philip Morris products. A list of comparable brands appears at the end of this document.

Unused food products should be donated to a local food bank through the hotel or caterer, who will know what is required for such donations.

Planners are expected to pay regular prices, including tax, for Company food products, either foodservice or consumer. The unit sponsoring the event will be billed, either through the hotel or caterer, or directly, as the planner indicates. These invoices are to be paid as any supplier's invoice is paid, i.e., approved by the purchaser and charged against the code normally used for event-related purchases.
